SUMMARY

Dedicated Software Engineer with 2+ years of experience in full-stack development. Skilled in Python, JavaScript, React, Django, and MySQL. Experienced in building scalable applications, API integration, and UI/UX design. Strong team leadership and problem-solving skills. Committed to continuous learning and delivering efficient, user-focused solutions in dynamic environments.

EXPERIENCE

Software Engineer

The Dot Studios

📅 11/2022 - 11/2024　📍 Salem, TN

A software development company focused on creating innovative solutions

- Developed full-stack applications using Python, JavaScript, React, Django, and MySQL, improving system efficiency by 40%
- Led a cross-functional team of 5 to deliver a scalable e-commerce platform, boosting user retention by 15%
- Built and optimized RESTful APIs and microservices, reducing backend processing time by 40%
- Reduced system downtime by 30+ hours/month through targeted software optimization

Process Associate (Consultant)

First American India Pvt Ltd

📅 09/2021 - 10/2022　📍 Salem, TN

A leading company in title insurance and settlement services

- Reviewed legal loan documents to ensure compliance with mortgage lending laws and client protocols
- Coordinated with process owners to ensure document workflow adherence and timely completion
- Maintained borrower data confidentiality and executed updates to align with current standards
- Assessed document index and data trace paths impacting property sales, refinancing, or foreclosures

EDUCATION

Bachelor of Electrical and Electronics Engineering

Mahendra Engineering College

📅 08/2016 - 05/2020　📍 Salem, TN

Higher Secondary Certificate (HSC)

Bharathi Vidyalaya Higher Secondary School

📅 05/2016 - 05/2016　📍 Salem, TN

Secondary School Leaving Certificate (SSLC)

Bharathi Vidyalaya Higher Secondary School

📅 05/2014 - 05/2014　📍 Salem, TN

PROJECTS

Food Ordering Application

A project focused on creating a responsive food ordering application

- Built a real-time food ordering system, reducing order processing time by 25%
- Integrated Google Maps API for delivery tracking, enhancing user experience for 100+ customers

KEY ACHIEVEMENTS

🚩 **ERP System Development**

Developed an ERP system with Openbravo, improving HR and finance data integration efficiency by 30%.

⭐ **Application Optimization**

Revamped client workflows, eliminating 20% of redundant processes

🎖 **Data Security Compliance**

Conducted 50+ data audits, ensuring 100% regulatory compliance in loan processing

✔ **Operational Efficiency**

Received appreciation from the onshore team for efficiently clearing the queue within the stipulated time

SKILLS

API Integration　Bootstrap　C/C++
CSS　Django　Debugging
ECommerce　ERP　GitHub　GUI
HTML　JavaScript　jQuery　Python
React　REST　SVN　Visual Studio
Vue.js　Node.js　Microservices
Full Cycle Development

CERTIFICATION

Python - GUVI

Full `Stack Development - EduBridge

Software Engineering Job Simulation - J.P. Morgan & Goldman Sachs

Advanced Software Engineering Job Simulation - Walmart USA

INTERESTS

💙 **Poetry Writing**

Crafting thought-provoking poetry exploring human emotions and experiences

🪄 **Continuous Learning**

Expanding knowledge in software engineering and emerging technologies

PROJECTS

ERP System for HR & Finance

Developed an ERP system for HR and Finance management
- Architected an ERP system that minimized data redundancy by 30% and automated 80% of payroll processing
- Enhanced data security, reducing financial errors by 15%

Event Management Application

An event management application to enhance user experiences
- Designed an AI-powered event recommendation system, boosting participation by 35%
- Implemented a real-time chat feature, increasing user engagement by 40%

3D Modelling for Construction Industry

Created innovative tools for the construction industry
- Developed interactive 3D rendering tools using Vue.js, enhancing architectural visualization accuracy by 20%

Electronic Data Management System

An electronic data management system focused on security and efficiency
- Created a secure, cloud-based data system, managing 10,000+ records efficiently
- Optimized database performance, cutting search latency by 45%

ADDITIONAL SKILLS

Legal Document Analysis   Data Analysis

Real Estate & Escrow Knowledge

Process Adherence

Documentation & Data Entry

Workflow Coordination

MS Office (Word, Excel, PowerPoint)

Analytical Thinking   Problem-Solving

Active Listening   Customer Service

Communication Skills
